## 1. Qualitative Information on Quarterly Financial Results

### (1) Explanation of Operating Results

Under the corporate mission of "a new magical experience," we as an entertainment company are developing our business in the entertainment domain, mainly through the operation of the VTuber group "NIJISANJI." Our VTuber business is comprised of four main domains, namely: the live streaming domain which engages in video streaming activities centered on live video streaming on YouTube, the commerce domain which sells original goods themed on VTubers, for whom we own intellectual property rights, and digital products recording their audio, the event domain which organizes music and other events featuring our VTubers, and the promotion domain which concerns, among other things, tie-up ads with other businesses, intellectual-property licensing and media appearances. VTuber group "NIJISANJI" and "NIJISANJI EN" are engaged in activities in the above four domains, mainly in Japan and English-speaking countries, respectively.

In Japan VTuber business, the number of VTubers belonging to NIJISANJI in Japan was 112 (an increase of five from the same period of the previous fiscal year), and the number of YouTube views reached 152 million hours (an increase of 11% from the same period of the previous fiscal year). The number of ANYCOLOR IDs, which are required when using "NIJISANJI Official Store" and "NIJISANJI FAN CLUB," totaled 631,000 (an increase of 123% from the same period of the previous fiscal year). We also focused on the overseas VTuber business, including the expansion of the VTuber business "NIJISANJI EN" in English-speaking countries, with 26 VTubers (an increase of twenty from the same period of the previous fiscal year) and 37 million hours of YouTube views (an increase of 1,226% from the same period of the previous fiscal year).

As a result of the above, the operating results for the three months ended July 31, 2022 were net sales of 5,930,883 thousand yen, operating profit of 2,122,840 thousand yen, ordinary profit of 2,112,310 thousand yen and net profit of 1,464,530 thousand yen.

As the Company operates in a single segment of video content-related business, segment information is omitted.

### (3) Explanation of Financial Results Forecast and Other Forward-looking Information

**English Translation**

This is a translation of the original release in Japanese. In the event of any discrepancy, the original release in Japanese shall prevail.

The Company aims to continue to achieve high growth through unit activity by multiple VTubers, training the next generation of VTubers through the Virtual Talent Academy, and further deepening overseas development, including in English-speaking countries. We set our forecast with a certain range for financial results for the fiscal year ending April 30, 2023, taking into consideration that it is difficult to quantitatively forecast the amount of enthusiasm from fans for our VTuber group, including new debuts, and that the VTuber market, especially in English-speaking countries, is still in its early stages. We did not make any change to the full-year financial results forecast announced on June 14, 2022.

The full-year results forecasts are based on information available as of the date of publication of this document, and actual results may differ from these forecasts due to various factors.
